KALIACHAK COLLEGE SULTANGANJ, MALDA

FEEDBACK REPORT OF THE STUDENTS FOR THE ACADEMIC SESSION 2013-14

Students are the most important ingredient in the teaching learning process. The College authority took initiative to have an assessment from the regular students of the college. Accordingly a questionnaire was prepared on the four point scale: excellent, good, satisfactory and un satisfactory.

To assess the quality of the teachers' performance five criteria were selected viz. Teaching Capacity, Regularity, Supply of Study Materials, Helpfulness and Teacher Student Relationship. Among them most of the teachers achieved excellence in their teaching performance. About the Regularity of the teachers the students' community opined that all the teachers are regular and most of them provide the required study materials and they are very much students friendly and helpful to solve the academic as well as personal problems of the students including the financial issues.

Library Service was also assessed by the students. The students who regularly use the library services express their opinion that availability of text and reference books are excellent. Whenever they asked for any book they got it. But the problem lies with the number of books lent. They feel it insufficient the number of book supplied from the library. Reading room atmosphere is ranked as satisfactory by the assessors. However the reader students expressed their views that the library authority makes delay to distribute the library lending card and reading room cards. A few of the students opined that the strict discipline is detrimental to their studies. Because in case they could not returned the book in due time they have to pay a penalty fine of Rs.0.25/- per day. Some of the students also opined that internet facility in library is not adequate to their needs.

However, the departmental library as they find that insufficient to the requirement. It is only meant for the poor and meritorious students. But still its performance is satisfactory to satisfy the need of the departmental students.

One of the problems faced by the students is water crisis. Though there is one Arsenic free drinking water plant in the college premises, but it goes short out of water some time especially in the summer session.

Regarding the assessment of the office performance, four criteria was selected viz. dealing with the students, quality of the service, atmosphere of the office, staff strength of the office. They ranked excellent to the quality of service. And a satisfactory rank was given to office environment. According to their opinion the staff strength is not satisfactory in comparison to the students.
